

## T-Minus Five Seconds

**Randy**

The male behaviour when it comes to women and to sex, is somewhere between a gorilla and T-rex. The masculine introspection as superior `til demise is a denial of the weakness in the sex and f\*\*king lies. Dont you think they are frightened by the pressure? Do you think they are building bombs for pleasure. Its just to keep the people in there places, its just to make sure to do what they say. Men of respect is affraid that this world will be feminizised, decategorized, classless and too free. If it gets to close than who know what they will do? T-minus five seconds left to live for you. Its just to increase there own sexroles unlike punks they dont have balls.
