

Not a Game

Raphael Saadiq

I think I love you more than I did before
Our love was so priceless, yet you're walking out that door
And even though I tried to change your mind many times
I still want you, baby baby

You were my girl from the start
I don't know how we fell apart
How could you leave me again?
I thought that we were just friends
See, there as friends, we don't lies
About the when and where and why
We're getting way too grown for this
Get out the sandbox, we ain't kids

It's not a game, not a game anymore
We're not teenagers like we were before
It's not a game, not a game anymore
This is so major, it's worth fighting for

You know I dress you with the best
Diamonds so clear, big as your wrist, baby
Maybe that's why you love me
Well, if that's so, then so will she, baby
Your friends are always in your mix
(Your friends are always in your mix)
Appraising your jewelry and fits
(Appraising all your jewelry and your fits)
So best thing, you leave me alone
(So best thing, you leave me alone)
They started chirping my cell phone

I can't lie (I can't lie)
I want this to work
(Do you think that men don't hurt?)
(But you're gone, it's time, bring me your key)
(In memory of me), think you know I'm not playing

It's not a game, not a game anymore
We're not teenagers like we were before
It's not a game, not a game anymore
This is so major, it's worth fighting for

I wanna work with this out, yeah
I know what this love's about
I wanna work this out
I know what this love's about
