

# This World is Drunk

Raphael Saadiq

He's always in three places  
Spaces undefined  
Heart is always racin'  
For something he will never fight  
Eyes are black  
Black and cold  
His soul has been shaken  
So shaken  
I believe he knows  
The sun could never reach him  
The view looks like a bomb  
The paradox is far away  
His brain waves, at least a ton  
His mind is so stressed out  
Tryin' to be a king  
When everyone around him  
Sees the clown and  
They're laughing at him  
Look at this idiot  
Don't know he's been set up to fall  
Can't find the truth in any friend  
And all he ever does is want drugs

This world is drunk  
And the people are mad  
This world is drunk  
And the people are mad  
This world is drunk, ooh  
This world is drunk and  
This world is drunk and the people are mad

He doesn't get a listen  
Not even to himself  
He spent 4 years away  
Was led astray  
Convicted for fraud  
He said he knows more now  
Now that he returned  
The books that he read there  
Told him he had gone too far  
He's always feeling left out  
And he always left his friends out  
He never understood why  
That most of his friends are just bums  
He's tryna live better now  
He says he needs that family life  
He can tell he wasted much time  
Winter time  
Has taken his life  
And making him miserable  
He never feels he's in control  
He finds it hard to walk away  
So all he ever does is stay drunk

This world is drunk  
And the people are mad  
So mad

This world is drunk  
And the people are mad  
So mad  
This world is drunk  
Oooh  
This world is drunk  
So drunk  
This world is drunk  
And the people are mad

This world is drunk (this world is drunk)  
And the people are mad  
So so very so very  
This world is drunk  
And the people are mad  
So mad  
This world is drunk (so mad)  
Oooh this world is drunk  
So mad  
This world is drunk (so mad)  
And the people are mad  
This world is drunk
