

See I would run a thousand miles just to see you smile again
Nu baby don't you count me out I still want you it's just a little complicated
To keep you satisfied like the queen you are but you so tainted
Don't know what's real or not but I know what I want so I paint it

You were by my side to face the storm
Holding you close but deep down I know
Nothing will grow, our roots are gone
You were by my side

I was the other half
Of your half full glass
The whole pitcher but you let them hit
Your rib by your side
I was by your side
Singing by your side
Like Jay-Da-Kiss
Still feeling jaded by the same ol' shit
Am I really what you baby
Want – or this
Familiarity you miss?
Tell me which?
You put a spell on me
Now I'm bewitched
Singing mortal man to a mortal man
I miss
On some if it's meant baby
Tell me your wish
I was told we're in control of our experiences
Is this real love?
Or we better as friends?
You brush me off before
For a hot bitch
When I'm like a
Very rare benz
I'm a rider
In the two tone
Now like two tones
I gotta hang up again
