

# God's Light

## Rapsody

Keep it blazin', blazin'  
Forever shining, forever shining His light  
Forever shining His light  
We keep it blazin', blazin'  
Forever shining, forever shining His light  
Forever shining His light  
We keep it

Thank God for the grace and mercy  
Days that I didn't feel worthy  
The days that nobody called me  
Everything silence taught me  
The lonely days in the Audi  
I was able to hear my Aunty say  
Forever shining, forever shining  
I didn't fold like the laundry, I'm facing my Karma  
Look to the Elohim for everything that I need like Donda, Donda  
Life repeating my lessons till I learn  
Momma said God got me, I-  
Forever shining His light

We keep it blazin', blazin'  
Forever shining, forever shining His light  
Forever shining His light  
We keep it blazin', blazin'  
Forever shining, forever shining His light  
Forever shining His light  
We keep it

Blind faith, confirmations come with belief  
I didn't mold in my tears, I was molded by all my grief  
What I need, God knows, I got on my knees and told  
I let my soul cry  
Forever  
If the frequency Lo-Fi  
Hope it's The Shining, they dealing cards  
I kept the ones that's hearts and diamonds  
I know it's hard, I look to God on days, like Moses  
Lost in the haze, eyes sick of witnessing pain  
But, God, He got me the same

We keep it blazin', blazin'  
Forever shining  
Forever shining His light  
Yeah, on and on and  
Forever shining

Uh, when it's dark, I look to God for Light  
That's the biggest key I learned in life  
On this solo quest, I had to separate from the tribe  
Me and 9th relationship like Q Tip and Phife  
Decisions come with karma, that's just part of the price  
Uncommon jewel, no Tiffany on me, we still shine in the light  
I learned to be kind, hell, I was overly nice  
Been taken advantage of, I've rolled some dice  
My life ain't a crystal stair, more a brick walk iced  
I strolled, God leading me down this road, Diana and Mike

I can't be stagnant, I'm learning from a scarecrow's life  
My state of mind wear on my chest like a pageant  
Going where there's no reception, taking advice  
What's love got to do with it? Like Tina and Ike  
My momma and daddy, like Tina and Ike  
Without the hits, without the hits y'all don't respect my light  
But that's life, right?
