Super cold, get a chinchilla  
You don't want it with a coppers hitter  
You couldn't get an ab even with a sit-up  
These days, only God is iller  
You couldn't shine with glitter  
Even if Shyne was with ya  
Thought you was a Bad Boy until you met Godzilla  
I'm God gifted, I'm darin' G's to pitch it  
Only the gods get it, nigga, that's how high I hit it

Godzilla crushin' y'all villas  
Godzilla only God's iller  
(Amen, Amen, Amen)  
Godzilla crushin' y'all villas  
Jamla the squad killa  
(Amen, Amen, yes, Lord)

Godzilla, Godzilla, so above the rest and only God fly with ya  
Lead em to water but can't teach em to fly fish it  
I'm a fly sister, I'm so fly, mister  
That's higher intelligence, y'all so irrelevant  
I ain't preachin' to em reverend  
I'm just bustin' like old Lakers, Jerry West and them  
I see the stress in em

Buckin' on the beat, I'm Jabari, I'm the star  
Polo, you couldn't see me in this flow, tho  
A sin that be this nice and took a bite out of Apple's logo  
Bars - I got bars on bars  
If a criminal flashback he'd play me in his car, lord  
Uh, only God is nicer than me  
Watch me take the harder way and make a million off a penny

I'm burnin' yo city, they fear me  
Black and I'm witty, while y'all still argue about Nicki  
Iggy, I'm killing these Mickeys, Biggie  
I'm talkin' 'bout Mice and Men, I'm talkin' 'bout God again  
I could flip it like Rodman, you a rebound, a vitamin  
Boy I'm lethal as lidocaine, up the wall I been spatterin'  
That's the skill you admirin', hard to wait on me, higher than God  
Not quite but damnit I'm on his right and  
Nobody else here in sight unless we talkin' about planes and kites  
Jay Hova and Christ, only ones iller than me, alright  
I'm nice, and mean at the same time  
God would have to rain dimes to change minds, I ain't lyin'  
Godzilla been the illest, I ain't lyin'

I woke up feeling like a million dollars  
Woke up yesterday, damn, had a million problems  
She say life still going on and on, baby, keep smiling  
Address nothing today like you ain't got a thousand Island  
Call my friends now we wildin', having fun, nonviolent  
Find a little balance, got me feeling like I'm Alice  
In wonderland, yeah, beautiful view  
Riding through the street listening to my favorite  
Didn't ya know I was gon' bring it? I never disappointed before  
Like D Rose with new knees I'm back on point, no joke  
You missed me the most, some others felt the need to divorce  
Hip hop it go pop, but I love this blackness  
And for record me and Jean already got a record  
Random, yeah, yeah, better rapping I do  
Riding through the street listening to old Badu  
Yeah, out my mind just in time  
Geniuses are borderline crazy says my mind  
Hell, I gave 'em plenty signs, yeah, all throughout my rhymes  
Now they calling me Future, I'm so ahead of my time  
When I came out the womb my mind was mentally 9  
Out of order till I'm back at one, I'm tryna reach Brian  
Your favorite, kiss me on my neck and my spine  
Late nights listening my favorite
