

# Never Fail

## Rapsody

Footnote!

Kendrick ain't mention no females  
Rapsody we gotta change that  
Boss!

For my people all on them hundred blocks  
For all my brothers that's trying, ducking a hundred shots  
Trying to stack hundreds we cometh 9th said to lead the squad  
Blacked out and the army back me with Molotovs  
Burn Molly  
I'm in Raleigh, finger to all the laws  
We don't follow rules they ain't meant to protect none of y'all  
Camisole - They want us to feel underneath  
Young dreamers, they kill our vibe but I won't bereave  
I'd rather sweat one than cry a beach  
Work harder till we all Carter's and Patricks D's  
Work harder till we at Harvard, the black elite  
New rules, new school, our generation deep  
Our gene erasing if we ain't taking the time to lead  
Death to YOLO I live Soulo without the seed  
Control system it ain't controlling we, Hiiipower, Most Dope, Culture Over e  
everything

From Anglo Saxons to niggas stacking  
We bragging  
We came a long way from picking cotton  
I bask in the glory of all my brothers rising up  
And shed a tear for all the ones that's on that molly dust  
Ain't trying to preach just trying to reach baby it's all love  
My father told me he got bout twenty more years with us  
Got me thinking how short this life is, we all giving up  
And God don't give us luck so get it or just give it up  
Words of wisdom I heard in the kitchen my mama cast  
And I ain't Yeezus but damnit it's dark so I'mma spazz  
Old class I got it from all them legends  
I'm in different lane but we parallel like 11  
And three sevens it gets dark but I never lose sight of heaven  
The sun don't shine, if I ain't rhyming I'm second  
To none confidence of Big Pun when I'm on the record  
And if you know I'm Hannibal Lecter resurrected  
Holy as Hova and this my grail  
I spill blood over it knowing that I'll never fail  
Tripping on reacts when they catching I ain't male  
Can't inhale so you'll never catch this winner holding a L  
Eric, it's apparent the squadron is gon' prevail  
Jamla the squad bringin' hell  
For real

Ion know fail  
I can't spell it  
I only know to keep going ain't um and keep jealous  
Stay up  
Stay up  
Confidence swelling  
Ion know how to fail  
I can't spell it nigga
