

# Take It Slow

Rapsody

Slowly, baby  
Take my time to get to know you, baby, baby  
Hold me baby  
I'll wait however long to hold you baby

Dancing at the party  
Don't slow down, hold my body  
Hold my hand, whisper in my ear  
"Where yo man?" I said I'm single and I'm in college  
He said he likes smart girls and that he from the islands  
Gave him my number told him "make sure that you dial it"  
Watched me as I walked away, you know your girl stylin'  
Playing playlists off Tidal  
He text me soon after I have to admit I got excited  
He asked if I was tired, I waited and sat in silence  
I know the code, but I was feeling bold, so I went over  
We talked about religion, I'm a witness of Jehovah  
We talked about sports and all sorts of things on the sofa  
The sun was coming up, I took the bed, he took the sofa  
I told him take it slow, baby  
You'll get to know me  
He said I'm worth the wait  
He agreed and he would show me that  
Slow, slowly

Slowly  
Hold you baby  
Hold you baby  
I'll wait however long to hold you baby, baby

It's the vibe, it's the vibe  
It's the vibe, it's the vibe, vibe  
It's the vibe, it's the vibe, vibe  
It's the vibe, it's the vibe, vibe  
It's the vibe, it's the vibe  
It's the vibe, it's the vibe, vibe  
It's the vibe, it's the vibe  
It's the vibe, it's the vibe  
It's the vibe, it's the vibe  
Cause I really wanna show you somethin'  
And I just wanna impress you darling  
And I just wanna make you feel good  
So is you with me

What up boy? Oh ok, oh, you into retros? I got those  
I got the 8's and 11's and, I mean, I mean whatever impress you  
I mean, I'm just sayin'  
I just wanna impress you, I got tickets to the game  
And a shirt with your favorite team  
I mean more than the rest do  
I bought this new fit cause I want this night to feel special  
And I paid the most for Uber, the black truck  
Look hun, I just wanted to impress you  
We can kick it, chill, it ain't gotta get sexual  
I ain't the type to give it up fast  
If you respect that then I'm sure it will impress you  
To know I like you and I just wanna impress you darling

I know all the words to Prince too  
I take my feelings back if you say that don't impress you  
I like it that you hold conversations, that's intellectual  
And you don't take yourself too serious, that's impressive too  
And I just wanna impress you darling  
And I just wanna make you feel good  
So is you with me  
And I just wanna impress you darling  
And I just wanna make you feel good  
So is you with me  
It's important we communicate  
Wait, I wanna impress you, I got the grapes  
Wait, I wanna impress you, I got the 8's  
You ain't just a regular friend to me as of late  
And before I been feeling this way since MySpace  
And I ain't like none of them other girls you used to date  
You laughing but I wasn't impressed with your bad taste  
I'm being honest, look I saved you ok?  
Look I was hoping maybe you would try with me when  
Bruh bruh split  
Or maybe you ain't like I was a tomboy then, hmm  
Or maybe you ain't think I was as pretty as them  
Now you like maybe I shoulda came and said something back then, true  
And I just wanna impress you darling  
So what you like, the movies or walks?  
A lit restaurant or home cooking at all?  
A comedy show joyride or somethin' else special?  
Look baby boy, I'm just tryna impress you  
And I just wanna impress you darling  
And I just wanna make you feel good  
So is you with me  
And I just wanna impress you darling  
And I just wanna make feel good  
So is you with me
