

Fire To The Night

Rapture Ruckus

Uh, I can see it in your eyes
Lights, camera, action
Now stand back, what's your reaction?
Like a nuclear reactor
Gonna blow up, gonna be so spectacular
Connects like comin' back wit' ya
'Gonna bite back like Dracula
Gonna lick it like shining, show

I see it in your eyes
See it in your soul
Look into my eyes, 'cause I already know
I can see the fire burning, fightin'
You've been coming to life
So set fire to the night
Fire, fire the night now

Now, now, now, now
Now, now, now, now, now, now, now, now
Now, now, now, now, now, now, now, now, now, now, now, now, now, now, now, now
Fire to the night
Fire to the night
Set fire to the night

Watch me burn this down
Watch me show you what you wanna watch
Watch as the city burns
You can stand there and watch as I
Start fire and riot, I'm ready to blow
You know, I've been holding this time, I'm ready to go
So I'ma show you what this is, kid
This is for real
The only thing I have left is the only thing they can't steal
So I got off of the loonies, we're going off with the wind
They burning bright, blazin', they can't touch the fire within

I see it in your eyes
See it in your soul
Look into my eyes, 'cause I already know
I can see the fire burning, fightin'
You've been coming to life
So set fire to the night
Fire, fire to the night now

Can't make you hot
You gon' shine
Can't make you hot
'Cause you gon' shine
Can't make you hot
'Cause you gon' shine
Can't make you hot, hot!
Fire to the night

Everybody gon' highway step in the room
The light so bright, the darkness be fooled tonight
Like a fairy light, it's burning bright tonight

'Till the darkness is consumed
'Cause you're more than what you ever thought before
It's more, this isn't just a metaphor
It's war as soon as you walk through the door
Everybody already knows what you came here for

Fire to the night
Fire to the night
