

Got U

Rare Americans

To get through the toughest times
To get through the worst of nights
To see all the pretty sights
To find all of life's light

To see where the world goes
To find all the unknowns
To help me stay strong
When the day is long

I remember feeling
I remember feeling
I remember feeling, just remember feeling
So damn alone

You...
I'm glad I got
You...
I'm glad I got

To pilot the tragic
To find all the magic
To find a way past it
To have a good laugh with

To see where the world goes
To find all the unknowns
To help me stay strong
When the day is long
When the day is long

You...
I'm glad I got
You...
I'm glad I got
You...
I'm glad I got

I remember feeling
I remember feeling
I remember feeling, remember feeling
So damn alone
