

# Eyes Don't Lie

Ras Kass

(I know your eyes don't lie)  
Ski  
(Your eyes don't lie)

My melody is melancholy  
Murderer's seldom [?]  
Broadside your warship then prepare to volley  
Let's break cannon fire  
I see a Man On Fire  
Like Denzel, my pain impale vampires  
I seen it in your eyes  
Bitch niggas ain't the real  
Signed it Abdul Mohammed  
That's why they wake Khalil  
And I know  
(I know your eyes don't lie)  
They don't lie

Look  
Window to your soul  
The Phantom in his drop-top  
Phantom in his window to the Rolls  
Peep B-boys with the keys to the low's  
Teeth full of gold, yeah, he's pulling snow  
Watch Rolex, nigga, watch your step  
Back to the basics, that's why I got LASIK  
And I know  
(I know your eyes don't lie)  
Your eyes don't lie

Action speak louder than words  
So Imma sit back and observe  
Dear god, it's working my nerves  
No wonder niggas sip Goose and puff on the herb  
Action speak louder than words  
(I know your eyes don't lie)  
(Your eyes don't lie)

See young niggas turn in Hollywood  
Went from rollin' up blunts to "do you party?" nose full of bumps  
Up a whole month, graduated to a full-blown drug addict, yeah  
Life in the dumps  
Dilated pupils ain't my Dilated Peoples  
You're toxic inside, that's lethal, y'all see-through  
And I know  
(I know your eyes don't lie)

Look  
I read the man like retinal scan  
I rock, I wreck, I bury the Tec in the sand  
Iphone, I con, I get that dough  
I feel your pain, bro, but I just don't know  
Some motherfuckers want to pull you down  
So you and them brown in the tears of a clown  
But I know  
(I know your eyes don't lie)

Action speak louder than words  
That's why I sit back and observe  
Dear god, it's working my nerves  
No wonder niggas sip Goose and puff on the herb  
Action speak louder than words  
(I know your eyes don't lie)  
(Your eyes don't lie)

Stare contest, first one to blink probably be the one to snitch  
Yeah, he the weakest link  
Who the young niggas rockin' the sleekest mink  
Hoody chinchillas move killer out the clink  
Peep, I think you're blind to the fact  
That the mind of men see ya, no joke, amigo, I see ya  
And I know  
(I know your eyes don't lie)  
Your eyes don't lie

Ten Commandments in ProTools it was written  
Move like, wait, I spit Robot Chicken  
Wanna see me fucked up, no pot to piss in  
Listen, y'all can't stop my vision  
Color contacts and cataracts, y'all hopeless, fam  
Keep my eyes on the prize and I'm focused man  
And I know  
(I know your eyes don't lie)  
Your eyes don't lie
