

MLK Day

Ras Kass

Its all for the culture that's what you see
And imma rep it til I can't no more
No matter where going ya best believe you gotta feel it in your soul fa sho

I wonder what cats was thinking April 3rd
1968 - day before Kings murder occurred
Probably optimistic, thinking bout driving down to Memphis
Now they name a street after him in Low Income districts
Not being negative I'm realistic
Speaking logistics in the process of keeping my wrist lit
The Modern Urban Philosopher
Rappers either make believe kingpins, or they gossipers
The devil traded Polo shirts for swastikas
Co-opted the cops, adopted the moniker of Evangelical Christian;
Same Christians 1960s, bombed churches & did the lynching
Guess religion contradicting heaven
Cause terrorism is homegrown & these radical got a reverend
What is Black Steel? It's that black mother with her back peeled
From whips cracking her flesh on a vast field
Picking cotton - yeh THAT yield
Just so she could survive to protect her baby,
It's that real
Black Steel: the murder weapon in the hood where blacks kill one another
See every brother ain't a brother
Am I supposed to - bleach my skin, wear blue contacts like Sammy Sosa
Sistas strip in Racist Chat Rooms - that Cat is Doja
Told ya, self-hate is that I'll
But you change your genetic family you Black Still
