

# Please Don't Let Me

Ras Kass

Nobody's perfect

(Please don't let me)  
Die before repenting my sin  
(Please don't let me)  
Drink and drive ever again  
(Please don't let me)  
Ever smoke meth or crack  
(Please don't let me)  
Get HIV with no get back  
(Please don't let me)  
Don't let me fail  
(Please don't let me)  
Ever spend another second in jail  
(Please don't let me)  
Come this far to fall off  
Please don't let me fuck mine off

I got vices I like, like vodka on the rocks  
Catch me at some Grammy party next to Jamie Foxx  
I'm not, marriage material, more like Heff  
I got knowledge of self, I'm sorta Mos Def  
Except, I'm a slut for a pretty-faced bitch  
Youngin used to say I got a lust demon trick  
Consequences every lifestyle you living  
Some rappers got herpes, the gift that keeps on giving  
Even worse than that  
I seen people go too far and can't come back  
Straight guys tricked by transvestites, sick  
Be careful who you let suck on your dick  
That bitch might be a boy  
I be frisking hoes in the club, I'm paranoid  
I don't exercise and that's bad with black folks  
Hypertension, heart disease, heart attacks, strokes

(Please don't let me)  
Die before repenting my sin  
(Please don't let me)  
Drink and drive ever again  
(Please don't let me)  
Ever smoke meth or crack  
(Please don't let me)  
Get HIV with no get back  
(Please don't let me)  
Don't let me fail  
(Please don't let me)  
Ever spend another second in jail  
(Please don't let me)  
Come this far to fall off  
Please don't let me fuck mine off

All my ex girls, say I'm selfish  
Shit, we in a recession, I need help, bitch  
Rent too damn high, I need help, bitch  
Pour the Doc, no pork, but I eat shellfish  
And I ain't looking for beef  
But bitch niggas get money, and think shit is sweet

I ain't taking no L's, we keeping it street  
Both sides pack heat, let the grim reaper reap  
And as far as rap concerned  
I don't feel like talking, homie, I'm taciturn  
Industry blackball wouldn't give Ras a turn  
But I'm the best nigga rapping, write classic burns  
And y'all dickride rappers who don't even write they own raps  
What kind of rapper is that?  
Multi-talented, overcame my challenges  
Don't bring me here just to die like Richie Valens did

(Please don't let me)  
Die before repenting my sin  
(Please don't let me)  
Drink and drive ever again  
(Please don't let me)  
Ever smoke meth or crack  
(Please don't let me)  
Get HIV with no get back  
(Please don't let me)  
Don't let me fail  
(Please don't let me)  
Ever spend another second in jail  
(Please don't let me)  
Come this far to fall off  
Please don't let me fuck mine off

I ain't even gonna lie, bro  
I'm sometimes my own worst enemy  
Most times my own worst enemy
