

American Living

Rascal Flatts

It's a mindset, never going out of style
From the concrete jungle even down a country Mile
Hey it's a boy and girl, winning with the hand That they've been given
It's a day in the life
It's the music and the rhyme of American Living
American Living, yeah

There's a boy and girl sitting out on the porch Swing
Singing a song that only two hearts in love sing
Maybe someday their about 80
Still in love... would it be that crazy?

It's a mindset, never going out of style
From the concrete jungle even down a country Mile
Hey it's a boy and girl, winning with the hand That they've been given
It's a day in the life
It's the music and the rhyme of American Living

There's a mom and dad and they're planting all Their seeds
Everyday just working on their dreams
Just trying to give the best to their kids
To have a life that they never did

It's a mindset, never going out of style
From the concrete jungle even down a country Mile
Hey it's a boy and girl, winning with the hand that they've been given
It's a day in the life
It's the music and the rhyme of American Living, Yeah
Yeah

It's a mindset, never going out of style
From the concrete jungle even down a country Mile
Hey it's a boy and girl, winning with the hand That they've been given
It's a day in the life
It's the music and the rhyme of American Living
American Living, yeah
