

Fallin' Upside Down

Rascal Flatts

There's no gravity up here
It's kind of hard to explain
Every time I'm holding you
It's like backwards rain, yeah

You lift me up
Like a kite on a string, like a bird on new found wings
So high on you, I'm floating and flying around
Your love is like fallin' upside down

You've got me so lightheaded (You've got me so lightheaded)
It's a dizzy mood (It's a dizzy mood)
Spinning uncontrollably, and gaining altitude

You lift me up
Like a kite on a string, like a bird on new found wings
So high on you, I'm floating and flying around
Your love is like fallin' upside down

Look at me, used to be
I could keep my feet on the ground
When you said you could take me higher
You weren't playing around (You weren't playing around)

You lift me up
Like a kite on a string, like a bird on new found wings
So high on you, I'm floating and flying around
(I'm floating and flying around)
Your love is like fallin' upside down
