## **How Strong Are You Now**

## **Rascal Flatts**

When she told you goodbye You didn't flinch When she looked back You didn't even budge an inch You stood there like stone But now that she's gone

How strong are you now
Without her around
You can't even keep one little bitty tear
From fallin' down
Tell me how strong are you know

Before she left you told yourself
It can't hurt that much
Now you're doubled over
Like you took a punch
No, she ain't coming back
Tell me how much can you take of that

How strong are you now
Without her around
You can't even keep one little bitty tear
From fallin' down
Tell me how strong are you know

Tell me how strong are you now - yeah How strong are you now - oh, oh What's that rule you live by You say tough guys never cry But how strong are you now
