

## Kiss You While I Can

Rascal Flatts

I know this tan is gonna fade  
I gonna have to lose these knockoff shades  
Baby, all because of you that we will never be the same  
I'll always see you and me just being us again

Time is ticking, I won't waste another minute  
But my ocean view still has you in it

I'm gonna dance with you like there ain't no tomorrow  
I'm gonna hold you like the ring of fire about to steal you away  
In the morning light the sun will hit the sand  
And the summer days will wash away, so I'm gonna kiss you while I can  
Kiss you while, kiss you while, kiss you while I can

Don't waste a word and let the radio sing  
Let's pop the top and pour one more drink  
Before you baby blues were going on the silver winds  
Ain't no time for talking  
Like nobody's watching

I'm gonna dance with you like there ain't no tomorrow  
I'm gonna hold you like the ring of fire about to steal you away  
In the morning light the sun will hit the sand  
And the summer days will wash away, so I'm gonna kiss you while I can  
Kiss you while, kiss you while, kiss you while I can

Gonna miss that dress hanging off your shoulder  
Gonna miss your shade in red on my cheek  
Girl, I can't believe this night is almost over  
Will be one of memory

I'm gonna dance with you like there ain't no tomorrow  
I'm gonna hold you like the ring of fire about to steal you away  
In the morning light the sun will hit the sand  
And the summer days will wash away, so I'm gonna kiss you while I can  
Kiss you while, kiss you while, kiss you while I can

Dance with you like there ain't no tomorrow  
I'm gonna hold you like the ring of fire about to steal you  
In the morning light  
Kiss you while, kiss you while, kiss you while I can  
Kiss you while, kiss you while, kiss you while I can

Kiss you while, kiss you while, kiss you while I can  
Kiss you while, kiss you while, kiss you while I can
