

# Night of Our Lives

Rascal Flatts

Seventeen don't seem that far  
I'd pick you up in my old car  
And I still see us, there we are  
Fallin' hard like a couple of stars  
On the night of our lives

We parked it down in that empty lot  
Drank that beer your brother bought  
Your kiss was cool and that air was hot  
We pondered life and tied the knot  
On the night of our lives

My little blue eyed blue jean girl  
We took that Chevy for a whirl  
Innocence and butterflies  
We left them both behind  
On the night of our lives

We were young and we were green  
But we grew up fast in that back seat  
The sweetest eyes I'd ever seen  
Tellin' me this was gonna be  
The night of our lives

Now we knew tomorrow I had to fly  
Off to Nashville to say goodbye  
Those tears were real in my eyes  
We held each other one last time  
On the night of our lives

My little blue eyed blue jean girl  
We took that Chevy for a whirl  
I look back and I still see  
The way you looked at me

Oh, hello kisses sweet as wine  
I was yours and you were mine  
Innocence and butterflies  
We left them both behind  
On the night of our lives

My little blue eyed blue jean girl  
We took that Chevy for a whirl  
I look back and I still see  
The way you looked at me

Hello kisses sweet as wine  
I was yours and you were mine  
Do I ever cross your mind  
Do you think of me sometimes  
On the night of our lives

Seventeen don't seem that far  
I'd pick you up in my old car
