

Sip Away

Rascal Flatts

Did someone say work?
Naw, that's a bad word
When it's sunny and seventy-five
How does anyone get anything done
When all you wanna do is let it unwind?

With a cooler, some water
Clear blue skies
Yeah, man, that sounds just right

So grab a little sunshine
A Corona and a lime
And mix it all up together
Get a tan while you can
Yeah, forget about your plans
'Cause the summer won't last forever
So just sip, sip, sip away
Before it slips, slips, slips away, yeah

Don't need a big boat
Just anything that floats
My baby's painted toes over the side
Makin' some big waves
Hot even in the shade
There ain't a cooler way to have a good time

Than a cooler, some water
Clear blue skies
Yeah, man, that sounds just right

So grab a little sunshine
A Corona and a lime
And mix it all up together
Get a tan while you can
Yeah, forget about your plans
'Cause the summer won't last forever
So just sip, sip, sip away
Before it slips, slips, slips away, yeah

Go on and tip it back now
Go on and just relax now
Sip, sip, sip away
Sip, sip, sip away, yeah

So grab a little sunshine (Little sunshine)
A Corona and a lime
And mix it all up together
Get a tan while you can (Tan while you can)
Yeah, forget about your plans (Oh-oh)
'Cause the summer won't last forever (Oh-oh)
So just sip, sip, sip away
Before it slips, slips, slips away
Oh, won't you sip, sip, sip away
Before it slips, slips, slips away?

See, we could mix it all up together
Yeah, man, that sounds just right

Just keep sippin' away
