

Everything that I like-like  
Eyes on you like a spotlight  
Going off of what I know-know  
Killing me with what I don't know  
But when I get close I feel the cold  
Coming on like a storm  
Why can't you say if you feel the same?  
Just give me something

Tell me, am I getting warmer?  
'Cause I can't read the thoughts in your head  
Every time I turn the corner  
I'm feeling like I know less and less  
I give you all of my time (Time)  
All day, all day, all night  
So baby, don't lie (Lie)  
Tell me, tell me, am I, am I getting warmer?

Poker face, don't you dare tell  
Feeling like what in the world girl  
Did I do to make you reclusive?  
But I know what the truth is  
You think you'll get hurt expecting the worst  
But baby, I've been hurt too  
We don't have to rush, a little's enough  
Just give me somethin'

Tell me, am I getting warmer?  
'Cause I can't read the thoughts in your head  
Every time I turn the corner  
I'm feeling like I know less and less  
I give you all of my time (My time)  
All day, all day, all night  
So baby, don't lie (Don't lie)  
Tell me, tell me, am I, am I getting warmer?

Need to know, am I getting colder?  
Are we good, are we almost over?  
Need to know we're not gettin' colder  
I need to know, need to know, yeah

'Cause I can't read the thoughts in your head  
Every time I turn the corner  
I'm feelin' like I know less and less  
I give you all of my time (My time)  
All day, all day, all night  
So baby don't lie (Don't lie)  
Tell me, tell me, am I, am I getting warmer?

Are we good, are we almost over?
