

# Calling (Nighthawk)

Rasmus Seebach

I've been around  
I don't know what I'm lookin' for - hey  
Yet another night out  
I always want a little more

For way too long I've been like a nighthawk  
So many pretty faces in my city after dark  
Feel like we're connected though I see you from afar  
Give me a sign, show me the light

Love is on the line - are you on the line too?  
There's a lot of static, can you hear me - ooh ooh  
Love is on the line - are you on the line too?  
I'm fallin' in the night and I'm screamin' at the top of my lungs

I'm callin' your name  
I'm callin' your name  
Yes, I'm callin' your name  
I'm callin' your name

Yes, I'm callin' your name  
I'm callin' your name  
Can you hear me callin' your name?  
I'm callin' your name

And once again  
I'm alone in a crowded bar - hey  
I'm spendin' all my money  
Still I don't know where you are  
For way too long I've been like a nighthawk  
So many pretty girls in my city after dark  
Feel like we're connected though I see you from afar  
Give me a sign, show me the light

Love is on the line - are you on the line too?  
There's a lot of static, can you hear me - ooh ooh  
Love is on the line - are you on the line too?  
I'm fallin' in the night and I'm screamin' at the top of my lungs

I'm callin' your name  
I'm callin' your name  
Yes, I'm callin' your name  
I'm callin' your name

For way to long I've been like a nighthawk  
In my city after dark  
Feel like we're connected though I see you from afar  
Give me a sign, show me the light

I'm callin' your name  
Yes I'm callin' your name  
I'm callin'

I'm callin' your name  
I'm callin' your name  
Can you hear me callin' your name?  
I'm callin' your name

Give me a sign, tell me where you are  
I'm lonely as a nighthawk - I'm callin', callin'  
Give me a sign, tell me where you are  
I'm lonely as a nighthawk - I'm callin', callin', callin'
