

Clouds

The Rasmus

I've been a bad
I've been a bad messenger
Like a vulture
I was drawn to her
And it's my fault
She slipped from the light
Now she's in love with the life on the dark side
Clouds
Please rain on me
Clouds
Come wash me clean
I took her down
I took her down underground
Like a demon
I would drag her around
And it's my fault
She dissolved in the night
Now she's in love with the life on the dark side
Clouds
Please rain on me
Clouds
Come wash me clean
Like a vulture I've been waiting
Waiting for the moment
Like a window on the darkness
Leaving the way open
Like a vulture I've been waiting
Waiting for the moment
(Shadow in the heart)
Like a window on the darkness
Leaving the way open
(Shadow in the heart)
Like a window on the darkness
Leaving the way open
Clouds
Please rain on me
Come wash me clean
