

Evil

The Rasmus

You showed me how to fly
Free across the sky
Softly like a bird
Careless of the world
You taught me how to smile
And how to be alive
But always in the end
No more than just a friend

Don't let me fall in love again, my heart is evil
My heart is evil, evil
Why do I always choose the one who's going to hurt me
My heart is evil, evil, evil
You're more than I deserve
I'm from different world
I'm from another time
I'm just another fool in the line

Don't let me fall in love again, my heart is evil
My heart is evil, evil
Why do I always choose the one who's going to kill me
My heart is evil, evil, evil, evil

Evil

Don't let me fall in love again, my heart is evil
My heart is evil, evil
