Fireflies

The Rasmus

[Verse 1]
I'm afraid of the daylight
What's wrong with my mind
Scared to go outside
It hurts in the eyes
Tell me why I can't get up
When I can see the day is dawning
I just wanna wind the clock
I'm waiting for the night to fall in

[Chorus]
Kill the light
Show me the dark side
Rule the night
High in the skies like fireflies
They don't hurt my eyes
Fireflies
[Verse 2]
The winter in ending
And the clouds go away
I've started descending
To the bottom of the grave
But what if I hurt myself?
I really don't know what I'm doing
I wanna be somewhere else
Cold wind is blowing

[Chorus]
Kill the light
Show me the dark side
Rule the night
High in the skies like fireflies
They don't hurt my eyes
Fireflies
Fireflies

[Bridge]
Somewhere unknown I'll find something new
Just let it go
I've nothing to lose
Alone in the zone
Waiting for you
Why don't you glow?
Your light in my dark
(Fireflies
Fireflies)

(Kill the light) Take me higher
(Show me the dark side

They don't hurt my eyes
