**G** **Emi** **C** **D** **G** **C** **D**  
Don't let me down I refuse to believe you Ooh Ooh eehh

**G** **Emi**  
1. So you don't wanna make anyone feel  
**Ami** **D**  
sorry for the girl who survives in the world  
**G** **Emi**  
This time is not the same thing  
**Ami** **D**  
cause we're not gonna leave the room before you talk  
**G** **Emi**  
just open your mouth and let the words come out  
**Ami** **D**  
Say goodbye to the devils inside you  
**G** **Emi**  
I got myself to this mess cause I love you  
**Ami** **D** **G**  
ain't gonna give (it) up 'cos I love you so

R: Is there anybody...

2. Did you have a bad day yesterday, OK  
You never complain 'n you never say no  
never say yes yes yoo  
You stand the pain like a man  
and see what's inside you  
Just like me every move that you make  
What do you say I think we've got something to talk about  
I got myself in this mess cause I love you  
I ain't gonna give it up 'cos I love you so

R: Is there anybody...

3. When I thought it was me who's having a rough time,  
I don't feel bad when I see you  
Everybody goes down once in a while,  
gives everything to the good  
I got just open your mouth  
'n let the words come out  
'n say goodbye to the devils inside you  
I got myself in this mess 'cos I love you  
I ain't gonna give (it) up 'cos I love you so

R: Is there anybody...
