

Venomous Moon

The Rasmus

When every breaking morning
Is getting harder to breathe
When every sound is a warning
If I could chain myself to a dream
I used to be on cloud nine
That had control of my life
I'm just a fading outline
And like a wolf I howl at the night

But there's an infinite silence
I'm crying out for guidance

Venomous moon
I feel my heart freezing over
The world is a tomb
Save me, is there anyone out there
Take me venomous moon
I've been waiting for all my life
I'm ready for you
Save me, is there anyone out there
Take me venomous moon

Life's a dying candle
Facing up to the storm
Once you fail you feel strangled
Cause every day we're fighting a war
(Look at the me now)
I'm just a swaying shadow
(Pulling me down)
Dancing up on the wall
(Nobody cares)
Trying to form a pattern
(No one around)
I used to find my way out before

But there's an infinite silence
I'm crying out for guidance

Venomous moon
I feel my heart freezing over
The world is a tomb
Save me, is there anyone out there
Take me venomous moon
I've been waiting for all my life
I'm ready for you
Save me, is there anyone out there
Take me venomous moon
Venomous moon
Oh venomous moon
Ahh
