

Boiling Point

RAT BOY

We all have dreams
When we were young
But now we're loaded
Just like a gun
We all have dreams
When we were young
But now we're loaded
Just like a gun

The world is near boiling point
Seeing Theresa May who we didn't appoint
Living for the sound of silent missiles
That within one second can reach fifteen miles
Something's wrong, can't you see?
How can you let people on the street freeze?
This is our so-called democracy
Anti-homeless spikes don't feel humane to thee

We all have dreams
When we were young
But now we're loaded
Just like a gun
We all have dreams
When we were young
But now we're loaded
Just like a gun

Get your information from corrupt newspapers
Live your life below the shiny skyscrapers
Big corporations and gentrification
Crashing the party with no invitation
We know they don't... a so
If you voted Brexit, please find the nearest exit

We all have dreams
When we were young
But now we're loaded
Just like a gun
We all have dreams
When we were young
But now we're loaded
Just like a gun
