

BOY WONDER

RAT BOY

What have I done
I'm not playing dumb
Your holding it in
See you biting your tongue
I'm not gonna ask why you've gone to your mums
Cause that would mean you'd have won

I said what I said
You left me on read
Don't tell your dad
Cause he wants me dead
And there's only soft I can tread
So tell me what you got in your head

And her mates won't tell me
They just think it's funny
Does every one know but me

Why'd you make a boy wonder
If you already know the answer
I used to be your boy wonder
Now all I do is send you under
And I try oh how I try
But I just can't get it right
Still I try and how I try
But I'm never gonna read your mind

I spent the rent it came and it went
Got nothing to show except this argument
You better believe that I had good intent
But you can't take that to the bank
And I'll say I'm sorry if that makes you happy
But I still don't know what I've done

Why'd you make a boy wonder
If you already know the answer
I used to be your boy wonder
Now all I do is send you under
And I try oh how I try
But I just can't get it right
Still I try and how I try
But I'm never gonna read your mind

Shoulda woulda coulda found the words somehow
I should know better by now
But shoulda woulda coulda doesn't help me now
Knowing won't help me

Why'd you make a boy wonder
If you already know the answer
I used to be your boy wonder
Now all I do is send you under
And I try oh how I try
But I just can't get it right
Still I try and how I try
But I'm never gonna read your mind
