

## Hanging Round

RAT BOY

Well my name and your name are still carved on that brick wall bus stop  
From the late night kebab and chips and waiting for the bus that never came  
Spend nights huddled up in doors  
Well I wish my girl were as dirty as this van  
Well what now big man?  
This is all a part of our master plan

Every light in the night looks like a police car coming round the bend  
The boy's soon traded in the 'peds to be a part of the latest trend  
When's it all gonna end? Some friendships never mend but we can try to prete  
nd  
I still stand by you when you act like you do, when you're acting like a tot  
al

Yawn in the morning, awake at night  
Always act tough but we've never had a fight  
Last generation of the door knockers  
Bit weird, feel uncomfortable around the coppers  
Writing hieroglyphics on the wall  
I've never been out on the pull  
Walking home with taxis and drunks  
It's just that feeling of rejection

Every light in the night looks like a police car coming round the bend  
The boy's soon traded in the 'peds to be a part of the latest trend  
When's it all gonna end? Some friendships never mend but we can try to prete  
nd

Job seeker's line getting longer and longer  
For sale signs getting bigger and bigger  
When you gonna figure out what its all about  
There's a lout with a foul mouth  
Drinks are warm and the weather is cold  
The girls are too young and the men are too old  
Live for the weekend work for the money  
Wake up early the next day, its good money

Well I can't go home tonight  
Won't you let me in, won't you let me in  
I won't kick up a fuss no fight  
Just a bit tired, like, and you must know it  
Well I can't go home tonight  
I'll be out by the time that its light  
We sleep separately in the same bed  
Well I can't go home tonight

Every light in the night looks like a police car coming round the bend  
The boy's soon traded in the 'peds to be a part of the latest trend
