

MOB MENTALITY

RAT BOY

Mob mentality!

The neighbourhood is watching us
Like they've never done before
On little screens you will be seen
There's nothing they'll ignore
If the bins are late they will not wait
There will be an uproar
Please compensate, investigate
We do not want a war
Because one thing is for certain
They'll be knocking at your door
(Oi oi oi)

Mob mentality that's reality
Murder he wrote
Call the policeman when you hear spray cans
Nowhere left to go
Broken system, kids with bricks and
Adults with smart phones
That's reality mob mentality
Yeah there's really no hope

Mob mentality that's reality
Mob mentality that's reality
Mob mentality that's reality
Mob mentality
Just take a look and see

Wake up in the morning and I go to brush my teeth
I see out of the window there's a crowd blocking the street
Slippers in the puddles, soaking through their feet
Dressing gowns and angry frowns, no sign of a retreat
Barons named Karen the managers they seek
They will not rest until the coupon hits there post next week
And if you know what's best for you you'll just nod and agree
Just let them speak take a note and always say sorry

Mob mentality that's reality
Murder he wrote
Call the policeman when you hear spray cans
Nowhere left to go
Broken system, kids with bricks and
Adults with smart phones
That's reality mob mentality
Yeah there's really no hope

M O B mentality
Where the signs say slow
M O B mentality
Where the hatred grows

Mob mentality that's reality
Murder he wrote
Call the policeman when you hear spray cans
Nowhere left to go
Broken system, kids with bricks and

Adults with smart phones
That's reality mob mentality
Yeah there's really no hope

Yeah there's really no hope
Yeah there's really no hope
