

## Move

RAT BOY

When you hit the groove that makes your head spin  
When you hit the groove that makes your legs move  
When you hit the groove that makes your head spin  
When you hit the groove that makes, you hit the groove that makes  
When you hit the groove that makes your head spin  
When you hit the groove that makes your legs move  
When you hit the groove that makes your head spin  
When you hit the groove that makes, you hit the groove that makes

Well, you know I never say the same thing twice  
Uh! Well, you know I never say the same thing twice  
I'm a passerby in the headlights  
Riding bikes like a landstrike no future sight  
We be the generation of TV stations  
I'm like a tandem, going in random  
I see no problem with NRG  
Anything's free if you want it to be  
Take my MP3 illegally and move

When you hit the groove that makes your head spin  
When you hit the groove that makes your legs move  
When you hit the groove that makes your head spin  
When you hit the groove that makes, you hit the groove that makes  
When you hit the groove that makes your head spin  
When you hit the groove that makes your legs move  
When you hit the groove that makes your head spin  
When you hit the groove that makes, you hit the groove that makes

Well, you know I never say the same thing twice  
Uh! Well, you know I never say the same thing twice  
Trippin' over myself in my three stripes  
Eating Maccy Ds but we never are happy  
Keep it underground like 'Wacky Gaddafi'  
Sorry, but today, I'm in a hurry  
Don't space invade cause I ain't no Atari  
Track skippin', spittin' teeth and grittin'  
I can hardly read these lines I've written

When you hear the groove that makes your head spin  
When you hear the groove that makes your legs move  
When you hear the groove that makes your head spin  
When you hear the groove that makes, you hear the groove that makes  
When you hear the groove that makes your head spin  
When you hear the groove that makes your legs move  
When you hear the groove that makes your head spin  
When you hear the groove that makes, you hear the groove that makes  
...

When you hear the groove that makes, you hear the groove that makes y  
our head spin
