

# Oh No

RAT BOY

All these motherfuckers, they'll fuck you up  
Tell you lies just to get you up  
Day after day in another decay  
Scenes round here well crime does pay  
Finding out things too late it's too common  
I ain't going out in a way to be forgotten

It's a social nightmare but we could be...

What don't kill me makes me stronger  
How come I feel so drained and nauseous  
And if you say you told me the truth  
How come I feel like I fucking hate you?  
What don't kill me makes me stronger  
How come I feel so drained and nauseous  
And if you say you told me the truth  
How come I feel like I fucking hate you?

The last two years been through more shit than ever  
Wake up on the floor never been too clever  
When a real hit song, it feels so alone  
Got no data, no wi-fi phone  
Can't trust no one, not even myself  
That's why I'm locked in this room ignoring my health  
And one more thing certainly not love  
I've seen more love [?]

(Yeah, I don't even care no more  
'Cause what they don't know is...)

What don't kill me makes me stronger  
How come I feel so drained and nauseous  
And if you say you told me the truth  
How come I feel like I fucking hate you?  
What don't kill me makes me stronger  
How come I feel so drained and nauseous  
And if you say you told me the truth  
How come I feel like I fucking hate you?
