

Public Identity

RAT BOY

"If I was one of these guys I wouldn't waste my time in the same room as you
That's right, boys like you, you learn your lesson..."

Get hit in the chest by a beanbag round
Two at the stomach and I'm gonna go down
Section 515 the rubber bullets
Find and conduct and avoid any harm

You know right now that we're done with the liars

What my public identity?
What's in this world that's left for me?
What my public identity?
What's in this world that's left from me?
What my public identity?
What's in this world that's left for me?
What my public identity?
What's in this world that's left from me?

Two different London's
What's in the dungeons?
Fucked up shit no doubt
Where's the money being spent?
It costs a fortune to rent
And they wonder why the youth now repent
Fuck the best, we're the rest
How do we progress
On a land built on corruption
And health and safety
But who's gonna save me
I know nobody gets out alive no

What my public identity?
What's in this world that's left for me?
What my public identity?
What's in this world that's left from me?
What my public identity?
What's in this world that's left for me?
What my public identity?
What's in this world that's left from me?

Run, run down to the alley
Tick, tick a number on the tally
Run, run down to the alley
Tick, tick a number on the tally
Run, run down to the alley
Tick, tick a number on the tally
Run, run down to the alley
Tick, tick a number on the tally

What my public identity?
