

SUBURBIA CALLING

RAT BOY

(Sur bur bur bur bur bia)
(Sur bur bur bur bur bia)
(Sur bur bur bur bur bia)
(Never let you go, it will never let you go)

The only way is Essex
'Cause London's too expensive
You may or turn your nose up
But one day you'll confess it
All the prefabs stand politely
With the flags up high and mighty
Everybody safe inside
Watching TV day and nightly

It's a shame
What it does to your brain
They tell me stay in your lane
On the M25 what a time to be alive

Pack your bags, suburbia is calling
That London life you can't afford no more
You stand in line at the station in the morning
Never let you go, it will never let you go

Sur bur bur bur bur bia
I hear it calling me
Sur bur bur bur bur bia
And what would be will be
Sur bur bur bur bur bia
I hear it calling me
Never let you go, it will never let you go

Pampas grass on your patio
Love thy neighbour don't impose
Like needles in the cul de sac
Once you're in, you can't go back
The neighbourhood is watching
Twitching shutters in the kitchen
So just act nice and normal
Or it's your name they'll be whispering

It's a shame
What it does to your brain
They tell me stay in your lane
(La la lovely lanes, everybodies gone insane)
On the M25 what a time to be alive

Pack your bags, suburbia is calling
That London life you can't afford no more
You stand in line at the station in the morning
Never let you go, it will never let you go

Sur bur bur bur bur bia
I hear it calling me
Sur bur bur bur bur bia
And what would be will be
Sur bur bur bur bur bia

I hear it calling me
Never let you go, it will never let you go

It will never let you go
It will never let you go
It will never let you go
