

# Alien With A Sleep Mask On

Ratboys

I don't know about me  
Take my life, and put it on a pedestal  
I don't get beamed down this way usually  
But, it's time for a change of scenery

I'm an alien with a sleep mask on  
I'm an alien with a sleep mask on  
Alien with a sleep mask on  
And I don't know where I went wrong

The front door slammed next to me  
Woke me up in my cryogenic chamber  
I said, 'Where are we again? No idea?  
Well, that's quite alright, I must be dreaming'

I'm an alien with a sleep mask on  
I'm an alien with a sleep mask on  
Alien with a sleep mask on  
And I'm sleeping with both eyes closed  
I'll probe you when I wake up  
I'm an alien with a sleep mask on

I come from the outside  
The outside looking in  
But, I'm so inside my head  
Yeah, it's beautiful from the outside  
But I'm always looking in  
Yeah, it's beautiful from the outside  
But I'm always looking in

Alien with a sleep mask on  
I'm an alien with a sleep mask on  
(Alien with a sleep mask on)  
Alien with a sleep mask on  
I'm an alien with a sleep mask on  
(Alien with a sleep mask on)
