

Empty

Ratboys

I have, I have
I have, I have
I have, I have

I have
I have

She was walking at night
Everyone said their goodbyes
She had to cry, I have

I have
I have

You followed her home before
Said some bullshit
"No one loves you anymore," so what?

Shut the door
I have

How empty are you?
Are you sorry? Tell the truth
You know, I have, I have

I have
I have
I have
I have
