

I Go Out At Night

Ratboys

I just had a thought
What if I never came home?
I'd go and get a job
Uninstalling '90s payphones

I like the sunrise
But I just want to feel alright
And sometimes when I'm alone
I go out at night

Pick apart my brain
Put it back into my head
Should I write it down
Hastily or let it rest?

I'd like to know what
Nothing and everything feels like
And sometimes when I'm afraid
I turn on the light

I am waking up in the light
The sun that breaks through the sky
Photographs fill my mind
I'm sleeping here for the last time
(I am waking up in the light)
(The sun that breaks through the sky)
Bada bada bada badudu
Bada bada bada badudu
Bada bada bada badudu
Bada bada bada badudu
Bada bada bada badudu
Bada bada bada badudu
Bada bada bada badudu
Bada bada
