

Printer's Devil

Ratboys

The fire in your eyes is open
I was hoping for somethin'
The fire in your eyes is open
A quiet light
Open up your life frozen
Dig where you lie
A frozen meadow
In the dead of the night

Printer's devil
Moves the type
A killer letter
That's dead inside
Printer's devil
Put down the line

God is silent
Make up your mind
God is silence
A voice inside

Put down the line
Put down the line
Put down the line
Put down the line
