

# The Window

Ratboys

I walked across the green grass  
To where I knew you laid  
The way the sun was shining down  
I only saw your shape

But, I need to tell you everything  
Before it's too late  
That I don't regret a single day  
And you're so beautiful

So take this part of me  
Last in the middle  
Making sure to breathe  
One more time

The window  
I saw you through the window  
We locked eyes and the window  
Was open, felt the wind blow  
I saw you through it

How could I have known that  
You wouldn't come back home?  
I sit down at the table  
And I fiddle with the phone

I wish you were right next to me  
Instead I'm alone  
But, I'll always have the memories  
Of our life together

So take this part of me  
Last in the middle  
Making sure to breathe  
One last time

The window  
I saw you through the window  
We locked eyes and the window  
Was open, felt the wind blow  
I looked in, and I felt you with me  
Yeah, I felt you with me  
When you waved your hand  
I felt you with me

Sue, Sue, you'll always be my girl  
Sue, Sue, you'll always be my girl  
Sue, Sue, you'll always be my girl  
Sue, Sue

So take this part of me  
Carry it with you  
Wherever it leads  
Don't be scared

The window  
I see you through the window

And when I sleep, the window  
You're here with me, the window  
You're in my dreams

The window  
I see you through the window  
And when I sleep, the window  
You're here with me, the window  
You're in my dreams

I feel you with me  
Yeah, I feel you with me  
When I close my eyes  
I feel you with me
