

# Hurts The Most

## Rationale

Whatever happened to those days  
Where you and I avoided reason?  
We threw reality away  
Closed the blinds and keep on dreaming...

I know  
You want the perfect scenario  
But you can't control  
The way the waters flow  
And I hate when you try to...

But I'll tell what hurts the most  
What hurts the most  
What hurts the most  
Is you don't  
Ever want to count the cost of those words you say...  
I don't wanna rock the boat  
But it's hard to cope  
When I hold you down  
But you don't  
Ever want to count the cost of the love you take...

Oh  
Whatever happened to those days  
Where you and I avoided reason?  
How did we go from grand designs  
To bitterness and confrontation (confrontation)?  
I can't face them (I can't face them)

I know  
You want the perfect scenario (Oh, the perfect scenario)  
But you can't control  
The way the water flow  
And I hate when you try to

But I'll tell what hurts the most  
What hurts the most  
What hurts the most  
Is you don't  
Ever want to count the cost of those words you say  
I don't wanna rock the boat  
But it's hard to cope  
When I hold you down  
But you don't  
Ever want to count the cost of the love you take

I thought our love would light the way  
The bond would never break  
These are the chains of yesterday  
I tried so hard to numb the pain  
Wipe the tears away  
It's too much to take  
But I...

I'll tell what hurts the most  
What hurts the most
