

## Tethered

### Rationale

You should know better, stay until [?]  
Praying our bridges don't make way  
Darling, I'm tethered when with you

How do I measure crumbling pressure?  
The boat is rocking in my veins  
Don't count when I with you

You've got a liquid gold

Round and round in my mind  
There's a truth I can't ignore  
I spent so many years  
Wandering from myself  
Until you came along

Yeah, you got it  
I have never needed nobody  
Nobody but you, nobody but you  
Yeah, you got it  
I have never needed nobody  
Nobody but you, nobody but you

(You've got a liquid gold)

Yeah, you got it  
I have never needed nobody  
Nobody but you, nobody but you  
Yeah, you got it  
I have never needed nobody  
Nobody but you, nobody but you

(I have never needed nobody  
Nobody but you)
