Ratking

It's time to think 'bout protection  
Every man for himself that's what I start to think  
What's with my obsession?  
All day, all fucking day feeling like I gotta fucking drink  
Feel like I'm infected  
With some shit up in my head gotta send me to the shrink  
They ain't interested in anything I gotta say  
Na, na, na, one thing; ain't listen to lessons  
Ain't give a mention  
I was on detention, when I wrote all this shit  
Still did what I did up on the benches  
Ooh, I was restless  
I was on the mic, made a mess man, even when I blessed it  
Now I feel like I get my chest kicked in, man every time I'm flexing

So I don't flex no more  
Cause that's soo hard  
When a bitch gets you hard  
But you thinking that she led you on  
She don't wanna have sex (na more, na) no more  
Now stressin' more  
Can't get enough  
Thinkin' back, back when before  
Thinkin' when less was more  
Thinkin' back, back when before  
Thinkin' less was more

I've been living my whole life just tryna make it work  
Whether it's spitting or it's writing tryna make it work  
All of these bitches, they lying, man it makes me berserk  
Just gotta make it work, just can't seem to make it work

I've been living my whole life just tryna make it work  
Whether it's spitting or it's writing tryna make it work  
All of these bitches, they lying, man it makes me berserk  
Just gotta make it work, just can't seem to make it work

Wanna talk about that, wanna talk about this  
Let you talking 'bout, talking 'bout walking 'round with  
With ya knife in my neck, man  
My job is a mess I clock around 6  
And I'm going to 6  
If I'm gonna live, gotta spit  
Woke up struct by this fucked up feeling I get  
Stand up on two legs, I can get through this stress  
Nobody, no no one knew what's next  
Damn, gotta do my best  
Gotta make these tracks  
I gotta play these shows  
Gotta do this press  
When power come really though, who is left?  
Now I'm thinking what's new and next  
Now I'm thinking bout' the bullshit now  
Thinking 'bout true shit  
Thinking what's new and next

I've been living my whole life just tryna make it work

Whether it's spitting or it's writing tryna make it work  
All of these bitches, they lying, man it makes me berserk  
Just gotta make it work, just can't seem to make it work

I've been living my whole life just tryna make it work  
Whether it's spitting or it's writing tryna make it work  
All of these bitches, they lying, man it makes me berserk  
Just gotta make it work, just can't seem to make it work
