

## Straight to Hell

**Raunchy**

This city we ride like devils in the night  
Harlots and dragons, crowns and thorns  
This city we ride with hell hounds by our side  
We thrash to live, we live to thrash

Let's go the only way we know  
You don't stay, Straight to Hell

Save me 'cause the hounds of hell do bite

There's nothing left to reconcile  
A mirror desire is a mirror on fire

This game we play like demons in a parade  
Now we ride a fucking charade  
Thirty sharks, sixty wolves and a fat lady in red  
Before the night is over we are fucking dead

Let's go the only way we know  
You don't stay, Straight to Hell

Save me 'cause the hounds of hell do bite

There's nothing left to reconcile  
A mirror desire is a mirror on fire

Let all hell break loose  
In a Crystal Lake scenery  
Come dance with me  
My misery

There's nothing left  
We're going straight to Hell
