But what the fuck where you expecting me to do  
Aye, bae lately shit I been feelin' blue  
Inside and outside

Who gives a fuck about the president's debate  
I'd rather roll up another fucking 8th  
Wait, aye, bae, it takes away the pain  
Inside and outside

Inside and outside  
Inside and outside  
Inside and outside

No love in this world, so Imma fucking stunt  
I don't have issues, this world is full of cunts  
No problem, I eat that shit for lunch  
Inside and outside

Fuck everything, man, this world is based on luck  
Your girl wanna suck me, I don't give a fuck  
Yuck, I'm celibate she want me to nut  
Inside and outside

Inside and outside

Don't give a shit now 'bout who you wanna see  
Look everywhere, love, they're nothing like me  
Please, just knock-offs and cheap wannabes  
Bitch, I been outside

Fuck all these boxes, I'm breaking out the cage  
Y'all don't wan knock heads, I'm born for the rage  
Aye, rent free, I remain in ya brain  
Inside and outside

Inside and outside  
Inside and outside  
Inside

I don't give no shits, ain't no shit Imma take  
I don't need your love 'cause your love is fake  
Babe, you say shit I hear everyday  
Get out, get outside

For far too long watched you posers ride the wave  
I think it's bout time, I numbered ya days  
Hey, hey hey, babe, we come out to play  
Inside and outside

Inside and outside  
Inside and outside  
Inside and outside  
Inside and outside
