

Never

Raury

Never let these bitches see you cry
Never let these bitches see you cry
Never let a bitch apologize
If she got a nigga to the side
Charge it to the game and let it ride
Otherwise you die a million times

I remember crying as a kid
Mama said stop crying like a bitch
I ain't wanna shed a tear since
Every now and then a man forgets
We don't get to be emotional
NO one cares bout what you goin through

All of the shit that I been through
Not short of miracle I still got mental in tact

All of the knives in my back
When these cowards attack
Some how Condition not critical

All of these birds and these chicks on my genitals
Is not by chance Is not coincident you know

All of the nights I regret
Blowing a check
All of These nights relapsed

Whole world Is turning they back
Would you relax
Or would you get on attack

Whole world is turning they back
Would you fall back
Or would you run that shit back

Losing dog I bet a stack
Keep it a stack
I can not run with the pack

Boots on the ground it's a wrap
Now it's a fact
I put the town on the map

Never let these bitches see you cry
Never let these bitches see you cry
Never let a bitch apologize
If she got a nigga to the side
Charge it to the game and let it ride
Otherwise you die a million times

I went from two tone Jones
To straight pimpin on bitches
I went from shittin in Walmart
To shittin on nigga
I'm shittin inside a g6
In fly to the death

Now I'm the east side prince
Young rap delicious
There ain't a stain on my name
Though I'm ever so odd
I'll be the king of the south
One day that's on God
Though Many men Throw shade
I'm shinin so hard
I'm shinin so damn hard
I gotta thank God

Unless that ass too fat
I don't got nothing for her
These nigga don't have class
They got zero decorum
I rep the stone moun town
East side of Georgia
I get the tree cross country
California to Florida
And bitch I came from the swamp
Like I'm born in New Orleans
And bitch I come from the mud
Like the dirt with the water
I am the master of chaos
Restoring the order
I turn my heart in to stone
Straight brick & the mortar
