

# NEVERALONE

Raury

Just know  
You are never alone  
No, you are never alone  
No matter where you go  
I just want you to know  
From L.A to Tokyo  
That you are never alone  
No, you are never alone

All my heroes turn they back on me  
I believe it's probably cause I'm actually not talented at all  
If we gon' break it down cause factually  
I make what I'm imagining  
Not popular, not trafficking  
They trap it on the radio  
Now little kids got trapper dreams  
Poppin' cats up in the tapestry  
Of the culture fabric of the blackest peeps  
Sensei, I needed you  
Why didn't you come back and teach  
I needed you, repeated you  
You said we could vibe anytime  
Whole year ain't get replies  
From the 10 times out of 10 I tried  
Let me disclaim that you don't owe me dip and dodge  
Right before my suicide I heard your song and I'm still alive  
Facing his career  
I didn't have supporters, didn't have another by my side  
Didn't have a homie, didn't have a mentor, didn't have a father in my life  
But I'm a be alright, beaming to the skies  
And if I touch the clouds, then I might be alright  
I might be alright, I might be alright  
All I know is sacrifice, all I know is sacrifice

You are never alone  
You are never alone  
No, you are never alone  
No matter where you go  
I just want you to know  
From L.A to Tokyo  
That you are never alone  
No, you are never alone

I'm a comeback with a vision  
Got a hot lava and a flamethrower  
Throwing fire bars on these lame boys  
Helped me grow up with the same boy  
Young man with the heat rock  
Boxed in by the sheet rock  
Gold key in his left hand  
But he aimed at by the street cops  
With the hot lava and the flamethrower  
For the fake boys and the ones you brang with ya  
I'm a give you what you came for  
Get your videos, let your cameras take picture  
Hot lava and the flamethrower  
I'm a fire, fire, fire, fire flame spitter

Fire, fire, fire, fire flame spitter  
Fire, fire, fire, fire flame...  
Fire, fire, fire, fire flame spitter  
Flying higher than the eagle wings  
Get ya cyanide to the higher powers  
Lying lieing while them snitches take pictures  
Burn your jersey you out the rasta  
I'm awake I am ayahuasca  
Shedding verses 'bout being real  
Bumping you report more than Takanawa  
Might deport you up off my island  
Might deport you up off my island  
Made your plays like a little boy  
Know that I destroy all my foes in silence  
Enjoy I'm at pure nirvana  
We can roll if you really wanna

Cause you are never alone  
You are never alone  
Girl, you are never alone  
No matter where you go  
I just want you to know  
From L.A to Tokyo  
That you are never alone  
No, you are never alone

Where is my shadow, shadow, shadow?  
Where is my shadow, shadow, shadow?  
Where is my shadow, shadow, shadow?  
Where is my shadow, shadow, shadow?
