

Otherside

Raury

If only you knew that
I was waiting for you
On the other side

It takes away the edge
I go ahead
It takes away the edge
I'm on the ledge
I go ahead

It takes away the—
Takes away the edge
Takes away the—

I'm on the ledge
I go ahead

Oh man, oh me, oh my
Posted up in Little 5 on a summer night
Dolo, cold shoulder on ice
Feelin' so low till I catch high tide

I'm tryna figure out life
And what is best to do
With the time I have alive
I really love my mom
Brother, sister, and my wife
Plus my baby boy's two
So I guess I gotta try

I never folded in my life
I'll never go without a fight
But really no cap, no flex, no lie—
When I see my hands are tied
I be thinking of the other side

Dream so big, haters call it sci-fi
A back full of knives, not a chance to ask why—
Why them niggas didn't ride
When they said that they would ride?

I never folded in my life
I'll never go without a fight
But really no cap, no flex, no lie—
When I see my hands are tied
I be thinking of the other side
