

## Phases

Raury

You got me changing phases  
Yeah, like the moon and the sun  
You got me changing  
Like no other, oh yeah, you do  
You got me changing phases

So what you think of as you lay?  
Down in your [?] right away  
She make me feel some type of way  
She make me feel some type of way  
I never thought I'd see the day  
Someone to ease the pain  
You're my only lover and my best friend  
I pray you love

You got me changing phases  
Like the moon and the sun  
You got me changing  
Like no other, oh yeah, you do, ooh  
You got me changing phases

My friends say I've been acting strange  
I thought this was just a phase  
But nothings ever been the same  
No, I can never hide away  
No, I was tripping yesterday  
I just figured I'd stay

You got me changing phases  
Like the moon and the sun
