

Room For Error

Raury

Don't make it complicated
Don't make it complicated
You know, you know I'm vaping
Don't make it complicated

I'm tired of the explanations, conversations, decorations
I'm tired of the in contention, I demand some liberation
I'm tired of the back and forth, my back is up against the wall, yeah
If who I am is not enough, go ahead and toss it off, yeah
Don't make it complicated

Don't make it complicated
Youse [?]
Don't make it complicated
I won't, I won't baby come through and get this feeling
You know, you know I'm vaping
You know, you know, you know [?]
Needed it, needed it
Don't make it complicated

You know that I'm a fool so, well I don't need no words to tell you
And I can't wear the certain price, certain way, certain life, yeah
So just give me room for error
Don't give me room for error
I'll turn you on, I will make sure you the first thought to take care
of
Just give me room for error
Don't give me room forever
You know there's no one better
And if there is

Don't make it complicated
Youse [?]
Don't make it complicated
I won't, I won't baby come through and get this feeling
You know, you know I'm vaping
You know, you know, you know [?]
Needed it, needed it
Don't make it complicated

You want you more
In my view
Teleport
Try to
To win your heart
Your mind too
And give my all
Times two
