## Rave the Requiem

Rebooting misogyny  
In the minefield  
Where happiness used to be  
Seeds of death and destruction  
Growing restless  
In the wake of  
A deathwish epiphany

Code red  
Drowning out  
The mass of the dead  
Requiem for peace  
And tranquility

Hate campaigns  
And lack of words  
Sympathizing  
Stigmatizing  
Reversing sanctimony

Burning out the fire in a firefly  
Dreams dying faster than a falling sky

Totalitarian agenda  
Failing systems  
Sharing the same propaganda

Lies to accept and lies to deny  
Theories to prove and theories to falsify  
Please save us from this hell  
Where we all burn alive

I wonder where you are  
I wonder why the sky is burning  
But I know  
Azalea  
You're not the one

Now tie me  
Whip me  
Blindfold me  
And make me suffer  
Even more  
Than being nothing but myself
